Instructions

Carefully review the **Required Page Content** section in *Web Design with Google Sites* for the page you are about to design, then use the space below to sketch your page. Indicate the layout of each section and which page elements you will use from the options on the right. Refer to this form when developing your page.

Page Elements

Use any of the following elements to add content to your page.

Text box

Image

Embedded site

Google Drive (Docs, Slides, Sheets, Forms)

Collapsible text

Image carousel

Button

Divider

YouTube

Map

Other

Section Layouts

Use any of the following pre-designed section layouts or create your own.
